MOSQUITO CONTROL PRODUCTS

Summit Chemical Company has been devoted to professional mosquito control for over 50 years. Our best selling Mosquito Dunks® were initially engineered for the professional mosquito control and public health industries as a biodegradable formulation aimed at low impact application to any body of water.

Mosquito Dunks® Kills Mosquitoes Before They're Old Enough to Bite!®

America's best selling homeowner mosquito control product. The only product with BTI, a bacteria toxic only to mosquito larvae, that lasts 30 days and treats 100 square feet of surface water.

- Non-toxic to all other wildlife, pets, fish, and humans.
- Simply apply Mosquito Dunks® to any standing water, or water garden.
- Kills within hours and lasts for 30 days or more.
- Labeled For Organic Gardening by the USEPA.
- The quintessential highly effective low impact product

Item # 102-12
2 Dunks® carded
12 cards per case
Each UPC 0-18506 00102-5
Case 100-18506 00102-2

Item # 102-24
2 Dunks® carded
12 cards per strip
2 strips per case
Each UPC 0-18506 00102-5
Case 200-18506 00102-9

Mosquito Bits®

Granular BTI offers a versatile application where standing water cannot be fully controlled. For example, bromeliads or "pitcher plants" contain water in each leaf and alternative control methods can be costly and time consuming, however, the Mosquito Bits®—with their convenient spice shaker top—can easily be broadcast over the treatment area and control larvae within 24 hours. Applications should be repeated once every other week, as long as standing water remains.

Item #116-12
8oz. Mosquito Bits®
12 per case
Each UPC 0-18506 00116-2
Case UPC 100-18506 00116-9

Item #117-6
30oz. Mosquito Bits®
6 per case

Mosquito & Gnat Barrier and Mosquito Coils

Summit Mosquito and Gnat Barrier

is packaged in a convenient precalibrated Hose-End sprayer. By spraying fences, decking, vegetation, and other surfaces—and allowing to dry prior to enjoying the area—the homeowner can effectively repel mosquitoes and other annoying pests for up to four weeks!

- Contains permethrin, a residual insecticide that provides up to four weeks of repellency
- Controls a wide variety of insect pests including mosquitoes, ants, fleas, ticks, and more.
- Reduce suitable mosquito resting area by spraying outdoor vertical surfaces and reduce your chances of being bitten.
- Spray outdoor pet areas and quarters to reduce the chance of heartworm and Lyme disease.

Summit Mosquito Coils

When the Mosquito Coils are burned they release a small amount of the insecticide d-l-allethrin d-trans chrysanthemate. This potent compound repels mosquitoes and other insects—providing inexpensive and effective protection in the backyard, patio, or campsite. Using Summit's mosquito control products together will provide multiple approaches to prevent insect annoyance, bites, and disease.

Summit... *responsible solutions*®

GARDEN & HOME PRODUCTS

Summit Ready-to-Use (RTU) Spray Oils are pre-diluted for small jobs in the home and backyard and approved for organic gardening. Ready-to-Use is an alternative to concentrates that require mixing.

Year-Round Horticultural Oils

Summit Year-Round® Spray Oil is a complete line of horticultural oils that kill and repel a multitude of insects on a wide variety of plants without synthetic toxins. Approved for organic gardening.

What are horticultural oils?

Horticultural oil is highly refined mineral oil, mixed with water and sprayed on plants to kill insects and their eggs, and preventing the spread of plant diseases.

Year-Round® Spray Oil kills insects through the physical action of "smothering" as opposed to traditional insecticides that "poison" pests. Horticultural oils have been used for centuries because of the effectiveness against many insect pests and low risk associated with their use.
